

A wide-angle photograph of the interior of Conway Hall, a large, ornate hall with a high, vaulted ceiling. The ceiling features several large, arched skylights. The walls are wood-paneled, and the floor is polished wood. A stage is visible at the far end, with a large screen displaying a blue, abstract, wavy pattern. The stage is lit with warm, orange light, and the ceiling is lit with bright, white spotlights. The overall atmosphere is grand and elegant.

CONWAY  
HALL

Conway hall has a basic in-house lighting rig that is suitable for conferences, presentations and basic performances.

The main hall is a beautiful space that was purpose built in 1929 to hold classical concerts and events.

The main hall's original features can be greatly enhanced by installing architectural lighting.

This brochure illustrates various lighting designs that can completely transform the main hall. They are designed for weddings and events that need that 'wow factor'.

These are just examples of what we can achieve in the main hall, please give us a call to discuss your requirements.

## Full Lighting Package in the Main Hall

Includes the following:

- Up-lighting of the side of stage
  - Up-lighting in the side walls
  - Patterned gobo wash of the ceiling
  - Patterned gobo wash of the floor
  - Installing and operating all equipment
-
